

Game Descriptions

Re-Mission 2 is a collection of online games created by the nonprofit [HopeLab](http://www.hopelab.org) to help young people with cancer take on the fight of their lives.

All the games can be played free online at re-mission2.org.

RE-MISSION 2: NANOBOT'S REVENGE

You are a nanobot, a powerful microscopic robot designed to blast away cancer. Players use an ever-increasing arsenal of powerful chemo attacks to crush the cancerous forces of the Nuclear Tyrant, firing targeted treatments on a growing tumor to prevent cancer from escaping into the blood stream. **Mobile app available for [iOS](https://www.apple.com/ios) and [Android](https://www.android.com)**, with support from Cigna.

Levels: 12 (+1 bonus level)

Developer: [Nerdook Productions](http://nerdook.com)

RE-MISSION 2: LEUKEMIA

Lured by the sweet taste of healthy stem cells, the Leukemia Monster has mutated the body's bone marrow. Players save white blood cells and destroy cancer with arcade action, point-and-click gameplay.

Levels: 20

Developer: [Nerdook Productions](http://nerdook.com)

Game link: <http://bit.ly/rm2leukemia>

RE-MISSION 2: NANO DROPBOT

Cancer cells are lurking, holding healthy cells captive and starving. Players seek and destroy cancer and rescue healthy cells as a specialized nanobot armed with chemo medicine bombs. Platform-style gameplay features navigating and exploring inside the body to fight cancer.

Levels: 15 (+10 bonus levels)

Developer: [Tinime Games](http://tinime.com)

Game link: <http://bit.ly/rm2dropbot>

RE-MISSION 2: STEM CELL DEFENDER

You are a mighty nanobot designed to protect white blood cells from a bacteria invasion – and you’ve got what it takes to win. Drag-and-drop gameplay maneuvers the nanobot to grow good cells to fight off a nasty bacterial infection. Powerful antibiotic bombs are used to wipe out the invading bacterial army.

Levels: 10 (+1 bonus level)

Developer: [Borne Games](#)
